

Build-to-Suit/Turnkey

The Perfect Turnkey Solution

When Legacy Harley-Davidson decided to expand its operation, the company turned to Agracel. With Agracel's Build to Suit/Turnkey Program, the decision was simple. Team Agracel partnered with Legacy Harley-Davidson management to develop the site, negotiate incentives and oversee the building design and construction. Agracel found the perfect home for the retail operation located at the crossroads of Interstate 57/70 in Effingham, IL. Because of its unique design and ideal location, Legacy Harley-Davidson has now become a destination spot for Harley enthusiasts across the nation.
