

Sale/Leaseback

Dedicated Client

Since 1996 Macon Metal Products (MMP) has leased the 84,500 sf facility from Agracel.

Macon Metal Products manufactures industrial material handling equipment, workstation and retail fixture and racking solutions. MMP began its' existence over 50 years ago as Macon Metal Products, a small manufacturer supplying metal parts to the Caterpillar Tractor Company, as it was known at that time. Half a century later they are still manufacturing products of the highest quality to the world's most demanding customers.
